KALTRIM KODRALIU

Rr. Qëndresa Podujevë, Kosovë · +383 45 624 785
kodraliukaltrim@gmail.com

Highly motivated individual on Web Development, focused more on frontend part. Working as freelancer on some small projects. Highly productive React Developer with experience working with JavaScript, React, HTML, CSS and Bootstrap.

EXPERIENCE

05/2023 – PRESENT
REACT DEVELOPER, PABAU CLINIC SOFTWARE
• Created API methods for client-side integration based on specific client requirements.
• Implemented middleware for secure data flow between server-side and client-side applications.
• Prioritized the development of reusable components, enriching the modular design for specific sections.
• Utilized React hooks for mobile responsiveness and leveraged LESS for optimized design and improved performance.
• Engaged in continuous learning, staying updated on the latest technologies and best practices in web development.

12/2022 – 05/2023
REACT DEVELOPER, HTTPS://WWW.WEBFORMIK.COM/
• Worked mostly on the Webformik SaaS product as a React Developer.
• Implemented Zustand state management library to efficiently manage and synchronize the state of React applications.
• Created reusable components in React.
• Integrated Firebase for authentication.
• Created Typescript Interfaces and types for backend data.
• Integrated React Query for query optimization and caching.
• Reviewed Pull Requests of other team members.

EDUCATION

09/2019 – 12/2023
BACHELOR'S DEGREE, UNIVERSITY OF PRISHTINA

PROJECTS

PABAU CLINIC SOFTWARE

Pabau is a clinic management software that collects and organizes all the information you gather throughout the client life cycle, then empowers you to use it to achieve great things. It will help you automate the consultation process, help dramatically grow your sales & save you time by eliminating business chaos. Easy installation, effortless integration, paperless, 24/7 online booking, and free online webinars about the software are some of the 50+ benefits that this software has to offer.
